TROPICAL CYCLONE ADVISORY NR. 1
Tropical Storm HAGUPIT
Issued at 5:00 AM, 07 May 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

GENERAL OUTLOOK FOR THE FORECAST PERIOD

- HAGUPIT will continue moving westward in the next 6 hours, then turn west northwestward for the remainder of the forecast period. It may enter the Philippine Area of Responsibility (PAR) between Saturday (09 May) evening and Sunday (10 May) morning and **will be given a local name CALOY**.
- In the next 48 hours, HAGUPIT will further intensify peaking as a high-end tropical storm. Afterwards, due to unfavorable environmental conditions, it will begin to weaken and may be downgraded to tropical depression by next Tuesday (12 May) while over the Philippine Sea.
- HAGUPIT is less likely to directly affect the weather and sea conditions in the next 3 days.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to continue monitoring for updates related to this tropical cyclone.

Unless there is an intermediate issuance, the next tropical cyclone advisory will be issued at 11:00 AM today.
